

Dr. Nurse

Nurse, there's a woman in my bed I said
Who is this woman in my bed
Please get her out of my bed I said
I want to be in my bed instead

Nurse softly said
Ella, this is not your bed
Ella said let's go to my bed
I need to be there instead she said

This is my hospital bed
Is all I said
Back into bed
The mountain view calms my head I said

I lay at peace in my bed
Mountain peaks dance in my head
It was then I knew
It was the view
The woman wanted this view instead.
